When you need printed documents that look like a million bucks, you don't want to leave the job to just anyone. At SWBP, the leading Dallas Printer, we take pride in making you look outstanding!

## Professional Printing For The Win

When you need to communicate your ideas, professional printing services help ensure your message comes through strong and clear.

Document Printing - Having access to hard copies of important documents is essential, especially if copies of the paperwork have to get distributed to employees, customers, prospects.

Specialized Printing - When you need to "WOW" a potential customer or client, our specialized printing services are ideal. Interior designers, architects, landscapers, and other professionals who use rendering, design boards, blueprints, and layout planning can rely on our printing services to share your vision, conceptualize the final product, and finalize the deal.

We are happy to help with all aspects of your printing service requirements, whether you require a small or a large-scale print run.

### Types of printing services we offer include:

- Construction Documents Printing
- Large Format Printing
- Black And White Printing
- Full-Color Printing
- Design Board Printing
- Furniture Plan Printing
- Professional Renderings

## Print Large and Get Noticed

At SWBP our printing services are perfect for businesses who are looking for large format printing. Our job is to get your message out with print material and signage. We can print on and with a variety of materials, substrates, sizes, custom shapes, and far more.

### What we can do:

- Print on flat substrates up to 2" inches thick.
- Sizes up to 5'x10' on rigid material.
- 65" x any length on rolled material.

## See What Our Large Format Printers Can Do For Your Business

- Vinyl and Fabric Banners
- Retractable banners
- Backdrop Banners
- Window clings
- Adhesive and Cut Vinyl
- Perforated Window Vinyl
- Backlit displays
- Posters
- Research Posters
- Meeting and Event Signage
- Canvas Wraps
- Wall and decor solutions
- Acrylic signage
- Trade show displays
- Floor graphics
- Point-of-purchase displays
- A-Frame Signs
- Yard Signs

## Custom Signs Are Our Specialty

SWBP works as your partner to create durable and visually appealing professional signage for commercial or personal use. Whether you need to announce groundbreaking for a new construction project or need yard signs supporting a local campaign, our printing professionals deliver!

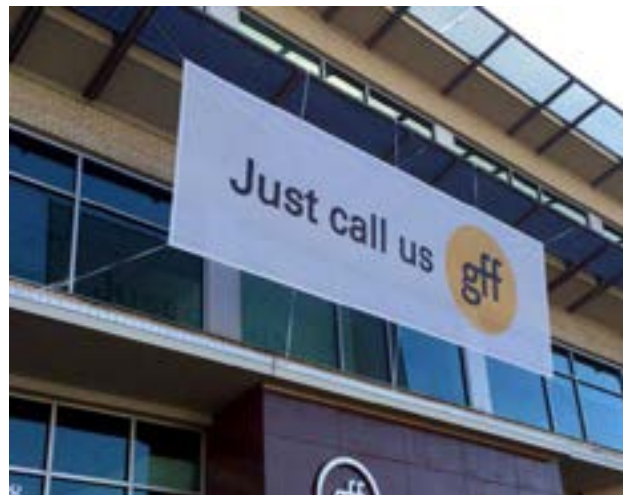

**Construction Signage** - When people see new construction or development projects, they want to know what's coming next. Professional construction signage helps keep the community in the loop.

- In addition to announcement signage, SWBP can provide specialized signage to address safety concerns, so you meet safety and compliance requirements at the job site before construction begins, during the development, and after project completion.

**Banners** - Customized vinyl banners are ideal for company or personal use. Durable and weather-resistant, these colorful signs can get hung indoors or outdoors for maximum impact.

- With multiple sizes from which to choose, customized banners stand the test of time with proper care.

**Yard Signs** - Yard signs are effective at capturing passers by's attention in both residential and business areas.

**Point Of Sale Signage** - Point of Sale Signage is a powerful marketing asset. Multiple configurations, including eye-catching floor signs, help to capture the attention of customers and prospective customers as they walk by your storefront, wait in line to order, or browse your shop in search of deals.

## Our Versatile Cutting Service

SWBP wants to offer our customers inspiration, creativity, and innovation to support their growing businesses. Our versatile cutting services can create anything from boxes, signage, trade show exhibits, and so much more.

### What Our Versatile Cutting Service Can Do:

- We can cut up to 2" thick.
- A True 5' x 10' work area.
- Contour cutting services available.
- It can also etches, drills holes, & routes.

The versatility and performance of this digital cutter extend to a wide variety of substrates.

- Acrylic
- Plexiglas
- Adhesive vinyl
- Boards
- Foam core
- Cardboard, and so much more...

## Cutting methods and applications

### Cutting tool/knife

- This tool is perfect for cutting all the way through thin material quickly to create custom shapes.

### Router

- Designed specifically for cutting rigid plastics, acrylic panels, non-ferrous metals, composite panels, and many other rigid substrates. Suitable for cutting hard surface substrates up to 1" thick and softer materials close to 2".

### Kiss-cut tool

- For vinyl cutting applications and especially kiss cutting, perfect accuracy in the cutting is essential. The variable pressure of the kiss cut tool permits precise cutting of foils without damaging the liner material.

### Creasing Tool

- This tool is perfect for scoring single-wall corrugated cardboard. Its crease wheel produces high-quality creases both with and against the grain without tearing or cracking the top layer of the substrate.

## Do you need marketing material printed for your next presentation?

SWBP does offer small format printing up to 11×17. We can do print jobs from small to large in black and white or color. Our small format services do include document scanning at any quantity. Our high-quality printing ensures that each project gets completed on time.

### A list of print services we can provide for your marketing efforts.

- Flyers & Trifolds - A useful marketing tool to promote your business or services.
- Pamphlets and Brochures - Still an effective way to get the word out about your service. A good idea passes them out during a presentation or a trade show.
- Menus - A great way to list your services or a delicious delicacy.
- Postcards - If you still like snail-mailing, we can produce custom postcards that can get the word out.
- Business cards - A useful marketing and network tool to promote your business.
- Presentation books - Do you want to impress your prospective clients? Then you need a printed presentation book or booklets. We have a list below of binding options for your presentation books.

#### Presentation Binding Options

- Spiral binding – is the most common binding use for presentation books. It holds its shape better than wire binding and accommodates large numbers of pages.
- Wire bound – gives you a premium look to your presentations. It shows your prospective client that you're ready to do business.
- Saddle stitch books – It places two staples in the center of an 11 x 17 spread. It's great for a sports program or a more detailed marketing brochure.
